MESSAGE FROM THE DESK OF MEMBER

Greetings and a warm welcome to Ethics and Dental Registration Board (EDRB) of National Dental Commission.

The Ethics and Dental Registration Board constitutes one of the three autonomous boards of the National Dental Commission, working towards promoting **"Ethical Dental Practices"** and overseeing the registration of dental professionals in the country with the vision of **"One Nation, One Registration"**.

Ethical practice lies at the heart of the dental profession. It guides professional conduct, strengthens patient trust, promotes accountability, and ensures that patient welfare remains the foremost priority. By upholding high ethical standards, dental professionals contribute to quality healthcare and reinforce public confidence in the profession.

The Ethics and Dental Registration Board is committed to promoting ethical practice through a transparent and responsive regulatory framework founded on integrity, accountability, professionalism, and fairness. The Board plays a vital role in safeguarding patient interests and strengthening trust in the dental profession.

A key priority of the Board is advancing the vision of "One Nation, One Registration" by establishing a unified, transparent, and technology-enabled national registration framework for dentists and dental auxiliaries. This initiative will facilitate professional mobility, simplify registration processes, and ensure greater uniformity in professional regulation across the country.

The Board firmly believes that effective regulation is best achieved through collaboration and mutual trust. We look forward to working closely with State Dental Councils, dental professionals, institutions, policymakers, associations, and the public in a spirit of partnership and shared responsibility.

I invite all stakeholders to join us in our commitment to ethical excellence, professional integrity, and a stronger, more accountable dental healthcare system for India. Together, we can contribute to better oral healthcare and the well-being of our nation.

(Prof. Dr. Usha Hegde)
